

# DATA REPORTING

## DATA REPORTING

Data for DiTom products, both electrical performance and test profiles, shall be reported in a Qualification Test Report, Acceptance Test Report, or other test report using DiTom form QF-755-002, Data Report Template. The report shall be titled appropriately for what is contained within the report including the type of test results and profiles that are being reported (Qualification or Acceptance) and the part number and serial numbers included in the report.

For more information on Data Reporting procedures please feel free to contact us at 559.255.7042 or email at [sales@ditom.com](mailto:sales@ditom.com)
