FOR IMMEDIATE RELEASE

**DiTom Microwave Receives Order for Space Qualified Hardware**

**Fresno, CA** - DiTom Microwave has received a contract from a major U.S. satellite manufacturing company for K band space qualified hardware. Under the contract agreement, DiTom will supply these components for a commercial payload.

The manufacturing work will be performed at DiTom's facility in Fresno, California and is expected to be completed by the end of Q3 FY2015. "We're excited to be partnering with this new customer," said Mark Weisz, President and CEO of DiTom Microwave. "We saw a need in the space market so we developed a manufacturing process to deliver space qualified hardware with an industry leading delivery."

**About DiTom Microwave**

DiTom Microwave, the leader in designing and manufacturing high quality connectorized ferrite isolators and circulators, has shipped over 250,000 ferrite devices to customers all over the world since its inception in 1987. Our goal is to provide High Reliability ferrite products that are cost-effective, while maintaining our 100% OTD and 0% RMA standards that our customers have grown to expect from us.
